The City Manager shall thereupon examine such petition, determine the sufficiency thereof and ascertain if the facts therein stated are true and shall cause an estimate of the cost and expense of such improvement to be made and shall transmit the same to the City Council, together with all papers and information in his possession regarding the same, together with his recommendation thereon and a description of the boundaries of the district and a statement of the proportionate amount of the cost and expense of such improvement which shall be borne by property within the proposed assessment district. 3.12.030 Establishment of Local Improvement Districts-Enlarged Districts

Every ordinance ordering a local improvement to be paid in whole or in part by assessments against the property specially benefited shall establish a local improvement district to be known as "Local Improvement District No. _____," which shall embrace as nearly as practicable all the property specially benefited by the improvement.

Unless otherwise provided in the ordinance ordering the improvement, the improvement district shall include all the property between the termini of the improvement abutting upon, adjacent, vicinal or proximate to the street, avenue, lane, alley, boulevard, park drive, parkway, public place or square proposed to be improved to a distance of ninety feet back from the marginal lines thereof or to the centerline of the blocks facing or abutting thereon, whichever is greater (in the case of unplatted property, the distance back shall be the same as in the platted property immediately adjacent thereto); provided that if the local improvement is such that the special benefits resulting therefrom extend beyond the boundaries as above set forth, the Council may create an enlarged district to include as nearly as practicable all the property to be specially benefited by the improvement. The petition or resolution for an enlarged district and all proceedings pursuant thereto shall conform as nearly as is practicable to the provisions relating to local improvement districts generally, except that the petition or resolution must describe it as an enlarged district and state what proportion of the amount to be charged to the property specially benefited shall be charged to the property lying between the termini of the proposed improvement and extending back from the marginal lines thereof, to the middle of the block (or ninety feet back) on each side thereof, and what proportion thereof to the remainder of the enlarged district; provided further that whenever the nature of the improvement is such that the special benefits conferred on the property are not fairly reflected by the use of the aforesaid termini and zone method, the ordinance ordering the improvement may provide that the assessment shall be made against the property of the district in accordance with the special benefits it will derive from the improvement without regard to the zone and termini method. (Ord. 28 1.03).

3.12.040 Making of Improvements-Competitive Bids

All local improvements, funds for the making of which are derived in whole or in part from assessments upon property specially benefited, shall be made either by the City itself, or by contract upon competitive bids in the manner provided by law. The City Council shall determine whether such local improvement shall be done by contract or the City itself. (Ord. 28 1.04).

3.12.050 Manner of Assessments

The cost and expense of any such improvement, or such portion thereof as the City Council may determine to be assessed, shall be distributed and assessed against all the property included in such local improvement district, in accordance with the special benefits conferred thereon, and in the manner provided by law. (Ord. 28 1.05).

3.12.060 Bonds Permitted

The City Council may provide by ordinance for the payment of the whole or any portion of the cost and expense of any local improvement by bonds of the improvement district, but no bonds shall be issued in excess of the cost and expense of the improvement, nor shall they be issued prior to twenty days after the thirty days allowed for the payment of assessments without penalty or interest. (Ord. 28 1.06).

3.12.065 Installment Notes Permitted-Issuance and Sale

The City Council may provide by ordinance for the payment of the whole or any portion of the cost and expense of any local improvement by installment notes payable out of the local improvement district fund. Such installment notes may be issued at any time after the thirty days allowed for the payment of assessments without penalty or interest. (Ord. 28 1.06: Ord. 196: Ord. 616 1.01).

3.12.070 Bonds-Issuance and Sale

Local improvement bonds may be issued to the contractor or sold by the officers authorized by the ordinance directing their issue to do so, in the manner prescribed therein, and at no less than par and accrued interest. Any portion of the bonds of any issue remaining unsold may be issued to the contractor constructing the improvement in payment thereof.

The proceeds of all sales of bonds shall be applied in payment of the cost and expense of the improvement. (Ord. 28 1.07).

3.12.080 Warrants-Lien on fund

The City Council may provide by ordinance for the issuance of warrants in payment of the cost and expense of any local improvement district fund. The warrants shall bear interest at the rate of not to exceed eight percent per year and shall be redeemed either in cash or by local improvement bonds or installment notes for the same improvement authorized by ordinance.

All warrants against any local improvement fund sold by the City or issued to a contractor and by him sold or hypothecated for a valuable consideration shall be claims and liens against the improvement fund against which they are drawn prior and superior to any right, lien, or claim of any surety upon the bond or bonds given to the City by or for the contractor to secure the performance of his contract or to secure the payment of persons who have performed work thereon, furnished materials therefor, or provisions and supplies for the carrying on of the work. (Ord. 28 1.08: Ord. 196).

3.12.090 Collection of Assessment-Local Improvement District Fund

All assessments for local improvements shall be collected by the director of finance and shall be kept in a separate fund to be known as "Local Improvement Fund, District No. ____" and shall be used for no other purpose than the redemption of warrants drawn upon the bonds or installment notes issued against the fund to provide payment for the cost and expense of the improvement.

As soon as the assessment roll has been placed in the hands of the director of finance for collection, he shall publish a notice in the official newspaper of the City for ten consecutive daily or two consecutive weekly issues, or if there is no official newspaper, in a newspaper of general circulation within the City, that the roll is in his hands for collection and that any assessment may be paid within thirty days from the date of the first publication of the notice without penalty, interest or costs. (Ord. 28 1.08: Ord. 196).

3.12.095 Segregation of Assessments

Whenever any land against which there has been levied any special assessment shall have been sold in part and subdivided, any person desiring to have a special assessment against a tract of land segregated to apply to smaller parts thereof, shall apply to the City for a segregation of assessments pursuant to RCW Section 35.44.410. A fee of fifty dollars shall be tendered with the application for reasonable engineering and clerical costs incident to making the segregation and, in addition, a fee of ten dollars shall be tendered to the finance director for each tract of land for which a segregation is to be made for segregation on the assessment roll. (Ord. 103-76 1.03).

3.12.100 Bonds-Installment Notes-Assessments

In all cases where bonds or installment notes are issued to pay the cost and expense of a local improvement, the ordinance levying the assessments shall provide that the sum charged against any lot, tract, and parcel of land or other property, or any portion thereof, may be paid during the thirty-day period allowed for the payment of assessments without penalty or interest and that thereafter the sum remaining unpaid may be paid in equal annual installments. The number of installments shall be less by two than the number of years which the bonds or notes issued to pay for the improvement are to run. Interest on the whole amount unpaid at the rate fixed by the ordinance shall be due on the due date of the first installment of principal and each year thereafter on the due date of each installment of principal. The first installment shall become due and payable during the thirty-day period succeeding the date one year after the date of first publication of the notice by the director of finance as provided in Section 3.12.090, and annually thereafter each succeeding installment shall become due and payable in like manner. If the whole or any portion of any assessment remains unpaid after the first thirty-day period herein provided for, interest upon the whole unpaid sum shall be charged at the rate to be fixed by the ordinance not exceeding the maximum rate permissible under RCW 19.52.020, and each year thereafter one of such installments, together with interest due upon the whole of the unpaid balance, shall be collected. Any installment not paid prior to the expiration of the thirty-day period during which such installment is due and payable shall thereupon become delinquent. All delinquent installments shall be subject to a penalty charge in an amount which shall be equal to the bond or installment note interest rate plus five percent, levied upon both principal and interest due on each installment or installments. (Ord. 28 1.10: Ord. 196: Ord. 8-79 1.01).

3.12.110 Bond Installment Plan

In case the improvement is made on the bond installment plan, the director of finance shall, at the expiration of thirty days after the first publication of the notice to pay assessment, report to the City Council the amount collected by him upon the roll and shall specify in the report the amount remaining unpaid upon the roll, and the City Council may then, or at a subsequent meeting, by ordinance direct the mayor and City Clerk to issue the bonds on the local improvement district established by the ordinance ordering the improvement in an amount equal to the amount remaining unpaid on the assessment. Chapter 3.26 - Utility Deposit System

Sections:

3.26.010 Deposit for Utility Service

3.26.020 Exemption from Deposit-Qualifications

3.26.010 Deposit for Utility Service

Applications for electrical, water, or other utility service, made by the tenant of leased or rented residential premises, shall be accompanied by a utility services deposit, provided, however, that the deposit will not be required for electrical services for those set forth in Section 14.12.010 of this code. The deposit amount shall equal twice the monthly average bill of the previous twelve (12) months for that occupied location without regard to prior discounted rates. If the premises has not been occupied continuously for the last twelve (12) months, then the deposit will be determined by a methodology contained in the City of Richland's Administrative Policies – Customer Services Policies which reasonably estimates twice the monthly occupied average.

Upon termination of service to the tenant, the amount of the deposit may be applied against any electrical, water or other utility charges then due or to become due from the tenant, including any connection or reconnection charges and shall be remitted to the appropriate fund or funds. If the amount of the deposit is not sufficient to pay the total of the unpaid charges, remittance shall be made to the appropriate fund or funds on a pro rata basis. If there is a balance remaining after payment of all utility charges then due or to become due from the tenant, such balance shall be refunded. (Ord. 27-81: Ord. 34-83: Ord. 42-01).

3.26.020 Exemption from Deposit-Qualifications

If a new customer presents a letter of credit reference that is for the immediate prior twelve (12) months of continuous service from a comparable utility company and meets the definition of good credit history, then there is an exemption from the requirement to make a deposit for utility services. Good credit history is defined as follows:

- A. One or fewer delinquent notices within the previous twelve (12) months and,
- B. No disconnects for non-payment of a bill or deposit within the previous twelve (12) months and,
- C. One or fewer checks returned to the City or prior utility for insufficient funds from his/her bank within the previous twelve (12) months and,
- D. No outstanding balances for utilities with the city within the last five years.

Existing utility customers who meet the qualifications for good credit, but who applied for services prior to the passage of this amendatory ordinance, will automatically have their deposit applied back to their account after the end of the month in which they are determined to qualify for the exemption. Upon completion of a twelve (12) month service period, all customers covered by the deposit will undergo an automatic review. If the above qualifications are met, the deposit shall be applied to the customer's account after the last day of the month in which they qualify.

Deposit Reinstated: The deposit requirement will be reinstated when:

- A. After receiving two delinquent notices since the start of the account, another delinquent notice is mailed within twelve (12) months of the last delinquent notice, or
- B. A customer is on the list for disconnects on the day disconnects are started, or
- C. Two payments are returned to the city for non-sufficient funds, or
- D. A customer has an outstanding balance for utilities with the City created within the last five (5) years, or
- E. A customer has a pattern of delinquent notices and one payment is returned to the city for non-sufficient funds.

The deposit will be retained until the customer re-establishes a good credit history for a period of twelve (12) months from the time the re-established deposit is fully paid. (Ord. 17-87: Ord. 16-89: Ord. 48-94: Ord. 34-96: Ord. 42-01: Ord.12-07).

The City shall have a lien against the premises to which electric light or power, water, sewage and/or refuse services were furnished for four (4) months charges therefore due or to become due, but not for any charges more than four (4) months past due; provided that the owner of the premises or the owner of a delinquent mortgage thereon may give written notice to customer service to cut off service to such premises, accompanied by payment or tender of payment of the then delinquent and unpaid charges for such electric light or power, water, sewage and/or refuse service against the premises, together with reconnection charge, whereupon the City shall have no lien for service thereafter furnished nor shall the owner of the premises or the owner of a delinquent mortgage thereon be held for the payment thereof; unless such owner of the premises or such owner of a delinquent mortgage thereon shall give written notice to customer service requesting restoration of such electric light or power, water, sewage and/or refuse service. The City shall waive the lien right against the premises to which electric light or power, water, sewage and/or refuse services were provided for any unpaid bills left owing by a former tenant, leasing or renting residential premises, who has made a utility services deposit as provided in RMC 3.26.010, or where a former owner/tenant left any unpaid bills and a new tenant has come in and signed up for service before disconnection of service for non-payment of the bill. If service has been disconnected, past due bills and charges shall be paid before utility reconnection. The service will be restored and the reconnection charged to the account if restored for a new owner or tenant. The City shall have a lien against the premises to which electric light or power, water, sewage and/or refuse services were furnished and billed to the owner/landlord while premises were vacant or no tenant has notified the City of occupancy. Service furnished after the effective date of a request by a tenant for termination of service, and charges for service furnished after such date and prior to the effective date of an application for utility services by a new tenant, shall be the responsibility of the owner of the premises and subject to the City's lien. Should a residential tenant qualify for exemption from the utility services deposit under RMC 3.26.020, the lien for electrical, water, sewage and/or refuse services will not be an available source for funds to pay the unpaid utility charges. If the exemption under RMC 3.26.020 is revoked and a utility deposit required, the lien will not be available to assist in pursuing payment of delinquent charges. (Ord. 48-94: Ord. 20-08).

3.28.020 Liens for Electrical, Water, Sewage and Refuse Services - Commercial Accounts

The City shall have a lien against the premises to which electric light or power, water, sewage and/or refuse services were furnished for four (4) months charges therefore due or to become due, but not for any charges more than four (4) months past due; provided, that the owner of the premises or the owner of a delinquent mortgage thereon may give written notice to customer service to cut off service to such premises, accompanied by payment or tender of payment of the then delinquent and unpaid charges for such electric light or power, water, sewage and/or refuse service against the premises, together with reconnection charge, whereupon the City shall have no lien service thereafter furnished nor shall the owner of the premises or the owner of a delinquent mortgage thereon be held for the payment thereof; unless such owner of the premises or such owner of a delinquent mortgage thereon shall give written notice to customer service requesting restoration of such electric light or power, water, sewage and/or refuse service. (Ord. 48-94).

3.28.030 Severability

The invalidity of any article, section, subsection, provision, clause or portion thereof, or the invalidity of the application thereof to any person or circumstance, shall not affect the validity of the remainder of this Chapter or the validity of its application to other persons or circumstances. (Ord. 48-94).

Chapter 3.30 – Utility Billing and Collection**Sections:****3.30.010 New Account Fee****3.30.020 Meter Reading and Billing Frequency****3.30.030 Billing for Fractional Month Service****3.30.040 Delinquency and Utility Collection Charge****3.30.010 New Account Fee**

Each prospective customer desiring utility service shall be required to pay a new account fee of fifteen dollars (\$15.00) when service is supplied. A new account fee shall be required for each new service location for which utility service is requested. (Ord. 15-03: Ord. 12-07)

3.30.020 Meter Reading and Billing Frequency

Meter reading and billing will be done as follows:

- A. All meters will be read and the customer billed on a monthly basis. Meters will be read each month on as nearly the same day as possible.
- B. When the meter reader does not obtain the read on the scheduled reading day, the meter reading will be estimated and billings may be rendered on the basis of these estimated readings. Adjustments to correct for errors in estimating will be made on a subsequent billing.
- C. When a meter fails to register properly, the charge will be calculated on the average consumption on a seasonal basis. (Ord. 15-03)

3.30.030 Billing for Fractional Month Service

- A. Monthly base rates will be prorated based on the number of days service provided divided by thirty (30) days. Consumption will be billed in addition to the prorated base rates.
- B. Demand charges will be computed on monthly demand meter readings. If service has been for a fractional month, the demand charge will apply for a full month. (Ord. 15-03)

3.30.040 Delinquency and Utility Collection Charges

Bills are due and payable upon receipt, and are delinquent after twenty (20) days from the billing date. Failure to receive a bill does not release the customer from payment of the obligation. Whenever a utility customer is contacted as the result of failure to make application for service or for nonpayment, a collection charge of ten dollars (\$10.00) will be charged. Interest may accrue on delinquent accounts at twelve percent (12%) per year. If the utility dispatches personnel to a customer's service location because of failure to make application for service or for nonpayment prior to dispatch then a collection charge of fifty dollars (\$50.00) will apply. Services will be disconnected until the customer makes satisfactory application for service, full payment including collection charges has been made or a payment arrangement agreement has been properly signed. Discontinuance of service does not release the customer from their obligation to pay charges for service provided. Upon execution of a utility application for service, payment arrangement or satisfactory payment, service will be restored before 5:00 p.m. Monday-Friday (except for holidays) without an additional service fee. Services restored after 5:00 p.m. Monday-Friday or holidays will also incur a seventy-five dollar (\$75.00) after-hours service fee. Active renter accounts that become 120 days past due will be terminated and turned over to collections. If a renter vacates the property and fails to request services be terminated, the service charges and associated fees or penalties remain the renter's responsibility up to the point in time the account and/or services are terminated. At the time the renter account is closed due to the 120 day past due status, the owner will be responsible for subsequent services or charges at that service location. Delinquent owner accounts are subject to a service lien in accordance with RMC 3.28. (Ord. 15-03: Ord. 20-08)

 3. In the case of residential property, where the applicant offers the City, in addition to the payment required by this chapter, an easement for public utility facilities which will equally well serve the purpose of the easement whose relinquishment is applied for, or where an existing easement will equally well serve such purpose, provided, that in either case, the cost of relocating existing utilities shall be borne by the applicant.
The City Manager shall keep the Council informed of all easement relinquishments approved or denied by him.
- B. In all other cases, the City Manager shall refer the application to the City Council for approval or disapproval. In such cases, the Council may fix a different consideration for the relinquishment.
