

## STREET LIGHTS & RENTAL LIGHTS

We maintain two types of lights for our residents:

- street lights - located on public property and/or city streets, and
- rental lights - located on private property

We rely on our customers to report problems with these lights. If you notice a light out please call (509) 942-7429 or email [Energy Services Power Operations](#) to report problems. The following information is helpful when you call:

- Name
- Telephone number
- Location and address of the light
- The pole number of the light. Numbers will start with H or P.

If you are unable to locate a pole number, please provide a detailed description of the light's location, so we are able to find the number on our mapping system.
