The City of Richland offers residential garbage, yard waste and recycling services. The standard service for residential customers is one 96 gallon garbage container and one 96 gallon yard waste container. Optional curbside recycling is available for an additional fee.

Weekly garbage service for commercial customers is available in container sizes as small as 100 gallon and up to 8 yard capacity. The city runs two front load collection trucks and one rear load collection truck to service commercial customers.

Drop Box service is available on a temporary or permanent basis for all types of projects. Appliances, tires, and hazardous wastes are not accepted in drop boxes. Residents or contractors interested in drop box service can request service by calling 942-7700
