

VIRTUAL INSPECTIONS

What is a Virtual Inspection?

A virtual inspection allows the inspector to remotely view the project using a webcam controlled by the owner or the owner's authorized agent. The City of Richland Development Services is piloting virtual inspections for residential construction. We are currently using the free application Zoom to perform inspections.

Is a Virtual Inspection right for your project?

During our Virtual Inspection pilot program, you can schedule the following:

- **Water Heater Replacements**
- **Heat Pump/Mini Split Inspections**
- **Furnace Replacements**
- **Window Installations**

Schedule a Virtual Inspection:

corinspections@ci.richland.wa.us

GETTING STARTED:

- **Internet Access**
- **Device with Webcam**
(iPad, iPhone, tablet, smartphone)
- **Download Zoom**
(available in the App Store)
- **Create FREE Account**
(www.zoom.com)
