

## DUPORTAIL STREET WELL PROJECT

### PROJECT DESCRIPTION

The Duportail Street Well project will construct a new 1500 Gallon per Minute domestic water well, located on the south side of the Yakima River.

### PROJECT MAP

### CONSTRUCTION DETAILS & SCHEDULE

#### Phase 1, site grading & access roadway:

Construction of an approximately 1/2 acre site with 450 foot long access roadway. Total cut of about 1200 CY with fill of 400 CY. Gravel will be placed on pad and access road with other exposed areas covered in hydroseed & tackifier.

Estimated time frame: February to March 2016.

#### Phase 2, well drilling:

Drilling approximately 800 foot deep well, 20" diameter casing, completed with a pilot well first (for testing purposes) and final well, cased and penetrating correct underground water aquifer.

Estimated time frame: April to September, 2016

#### Phase 3, well site improvements:

Well house construction, pump installation, underground piping, valves and other well site improvements.

Estimated time frame: October 2016 to March 2017.

### PUBLIC OUTREACH EFFORTS

Open House: February 24, 2016

4:30p.m. – 6:30p.m.

City Shops, 2700 Duportail Street
